FurniWood – Modern Furniture E-commerce Platform

1. Project Title and Description

Title: FurniWood – Modern Furniture E-commerce Platform

Description: FurniWood is an online platform designed to provide users with a seamless experience in browsing, selecting, and purchasing modern furniture. The website features a clean UI, intuitive navigation, and a secure checkout process.

2. Objective and Target Audience

Objective: To create a user-friendly, visually appealing, and responsive e-commerce website for furniture shopping, focusing on ease of use and customer satisfaction.

Target Audience:

- Homeowners and renters aged 25–50
- Interior designers
- Small business owners looking for office furniture

3. Research on Two Competitor Websites

Competitor 1: IKEA (ikea.com)

- **Strengths:** Wide product range, strong brand, detailed product info, room inspiration
- **Weaknesses:** Sometimes overwhelming navigation, slow load times

Competitor 2: Wayfair (wayfair.com)

- **Strengths:** Huge selection, user reviews, frequent sales, easy filtering
- **Weaknesses:** Cluttered interface, too many pop-ups, inconsistent product quality

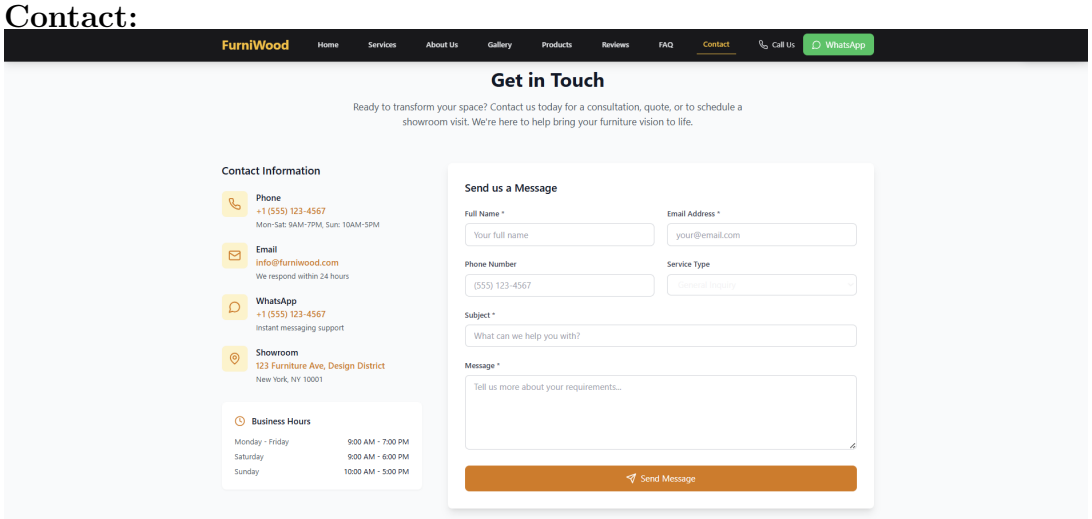
- **Contact:**



7. Challenges Faced and Solutions

- **Integrating Payment Gateway:**
  Solution: Used Stripe API and followed documentation for secure integration.

- **Responsive Design for All Devices:**
  Solution: Utilized CSS Flexbox/Grid and tested on multiple devices.
- **Optimizing Product Image Load Times:**
  Solution: Implemented lazy loading and compressed images.

8. What Makes FurniWood Better Than the Competition

- Minimalist, distraction-free design
- Faster load times due to image optimization
- Streamlined checkout process
- Personalized recommendations based on browsing history
